

# Cardiology Catalog

Mytonomy's Cloud for Healthcare holds the most comprehensive cardiology video library in the industry spanning an extensive breadth of procedures and conditions including CABG, TAVR, EP procedures, and Heart Failure, in both English and Spanish. Additionally, custom content for your institution can be customized in Mytonomy's film studio. Cardiometabolic conditions are also covered with a special focus on Diabetes, Hypertension, and Hyperlipidemia. The system is fully interoperable with all major EMRs and CRM solutions.
