

A customized, value-producing evaluation that identifies and prioritizes your top opportunities and recommended next steps.

IMPACT: Opportunities Assessment

WHAT ARE YOUR GREATEST CHALLENGES?

- Uncertain of your top priorities
- Lack of leadership consensus
- Need for more effective governance
- Suboptimal performance metrics
- Not ready for bundled payments
- Operational areas not working right

OUR EXPERTISE BRINGS CLARITY AND DIRECTION

The IMPACT: Opportunities Assessment provides a high-level performance review of your practice and/or service line from organizational, strategic, operations and market perspectives.

Through a combination of information from our customized visit, where we assess the areas you want us to focus on, as well as industry data and perspectives, we will provide you with a constructive analysis of your current state vs. your ideal future state and a prioritized set of recommendations.

WE WILL ASSESS

- ✓ Alignment and Engagement
- ✓ Strategy and Implementation
- ✓ Physician/APP Workforce
- ✓ Clinic and Scheduling Operations
- ✓ Practice and CVSL Performance
- ✓ Clinical, Financial and Operational Aspects
- ✓ Governance Effectiveness
- ✓ Change Readiness

Outstanding job. We greatly appreciate the honesty and transparency with which the final report was written."

– SHERRY CRONE, SUTHERLAND CARDIOLOGY CLINIC

WE WILL DELIVER

- ✓ A professional and thorough set of conversations with your physicians, staff and other key stakeholders that help us uncover the real issues and opportunities.
- ✓ A customized, candid and constructive verbal summation of our prioritized recommendations at the conclusion of our 2-day on-site assessment and a written report within 10 days.
- ✓ Valuable insight from the perspective of MedAxiom experts who have managed cardiology practices and CV Service Lines throughout their careers.
- ✓ The top 3-5 steps we think you can take to have the greatest impact on your program's future success.
- ✓ Ideas, tools and other resources that help you take the recommendations and incorporate them into your organizational strategy.

Using feedback from on-site interviews and data analysis, you will benefit from MedAxiom's knowledge of the national landscape of our 400 CV program members and receive recommendations that are 100% focused on how your heart program can be more successful.
