

2018 Annual Survey is Now Open

Complete by Deadlines Below to Receive Your Customized Report

Focusing on the most relevant information for today's practices, and in appreciation of your time, we have simplified and shortened our annual survey significantly. We trust that you will find the process of filling out the survey faster and easier, and that the end result will provide you with the critical financial and operational information you need to assess and improve your practice.

Important: To receive your complete report prior to the Spring conference in April, you must submit your data for all four sections below by the stated deadlines.

Don't miss out on this exclusive and valuable MedAxiom membership benefit!

Survey Deadlines

Provider FTE Worksheet:
February 16, 2018

CPT Report Submission:
February 16, 2018

Annual Financial/Operational Data Entry:
February 23, 2018

New, Shorter Demographic Survey:
March 2, 2018

To Complete the Survey:

1. Log in to medaxiom.com
2. Go to MedAxiom
3. Click on "Cardiology & Surgery"
4. Click the "Survey" tab

Please e-mail your Provider FTE and CPT reports to: surveys@medaxiom.com

FAQ's

CPT Report Submission

Q: Do we include the advanced practice providers on this report for an accurate account of the practice?

A: YES

Q: Are CPT codes by date of service or date of entry post?

A: Date of entry post

Q: Do we include modifiers?

A: Yes, please include ALL modifiers. Please add additional columns to worksheet as needed.

Provider FTE Worksheet

Q: Who do you consider a provider?

A: Physicians, APPs and visiting/contracting physicians.

Q: Should provider FTEs include only providers that were part of the practice for the entire year?

A: Include the actual time the provider has spent in your practice in 2017. So, if a provider came in halfway through the year, then worked full time, at the end of the year, he or she would be counted as a .5 FTE. You should also include providers who were hired or retired part way through the year, as well as visiting/contracting physicians.

Annual Survey Data Entry

Q: The annual financial and operational data entry looks different? Why?

A: We have reduced the amount of data entry fields down to two books: 102 Employee FTE & Compensation Survey and 105 Revenue, Overhead & GL. As you will see, the Imaging, Accreditation and Value-Based Purchasing books are no longer available; these were eliminated in order to make the data entry process faster and easier for you, and to focus attention on the data points that are most relevant to today's practice.

Q: For FTE counts, do we list the actual or budgeted FTEs?

A: Actual

Q: Do you count staff FTE by 440 half days as well?

A: Physicians are designated using a practice assigned FTE value as well as the number of half days worked per year. APPs are designated using a practice assigned FTE value. The remainder of the staff FTEs are counted by 2080 paid hours per year = 1.0 FTE.

Q: Where are the entries for outsourced FTEs?

A: We are no longer collecting or graphing outsourced FTEs— only total cost.

Thank You!

As always, we appreciate you contributing to the data set so that you can return optimal performance metrics to your leadership team.
